## MARQUETTE COUNTY SOLID WASTE MANAGEMENT AUTHORITY SCHEDULE OF FEES

Type of Material	Description	Fee
Туре II	Includes non-hazardous household/residential municipal solid waste material	\$68.00/ton*
Type III	Includes non-hazardous construction and demolition waste material	\$68.00 /ton*
Type II or III Special Projects	Non hazardous debris or other materials generated from special projects in Marquette County	TBD based on type of material, analytical data, volume, and Authority utilization
Compost (Leaves, Grass, & Brush)	Includes tree limbs, shrubs, logs, etc. Must not be mixed with other waste/debris. Maximum 2" diameter. Compost material in plastic bags will not be accepted. Compost can NOT be disposed in the landfill. It must be put in the compost area.	No charge (No permit needed)
Compost (Source-Separated Organics)	Includes food waste, and any other organic material. Must be separated from other waste and disposed in the compost area. Non-organic material, such as plastic bags, will not be accepted.	No charge (No permit needed)
Stumps	Any stumps or any load with stumps or logs greater than 2" diameter mixed in.	\$68.00/ton
Contaminated Soil	Hydrocarbon contaminated material (contaminated soil) must be tested and appt. required for disposal	\$68.00/ton
Recyclables - In County (Marquette)	Single Stream Recycling (SSR) - Cardboard, mixed paper, plastic & metal containers per recycling guideline. Separated glass bottles, jars, containers <b>No plastic bags or film material accepted.</b>	No charge - In County (No permit needed) *Unacceptable/contaminated loads: solid waste tipping fee rate applies
Recyclables - Out of County	Single Stream Recycling (SSR) - Cardboard, mixed paper, plastic & metal containers per recycling guideline. Separated glass bottles, jars, containers <b>No plastic bags or film material accepted.</b>	\$30/ton / TBD by volume - Out of County *Unacceptable/contaminated loads: solid waste tipping fee rate applies
Confidential Document Destruction	Proper notice by 3:00 pm on the day preceding delivery is required. Documents must be in boxes and taped shut.	\$25.00 for certificate of destruction No charge if you don't need certificate of destruction (No permit needed)
Special Waste**	Includes medical waste, asbestos, special material, etc.	See Fees Below
a. Medical Waste Proper notice by 3:00 pm on the day preceding delivery is required	Medical Waste	\$565.07 per ton
b. Asbestos: Proper notice by 3:00 pm on the day preceding delivery is required	0 to 6 cyd (pickups, vans, small trailers) 7 to 20 cyd (large vans and trailers, trucks, roll off containers) 21 to 30 cyd (large tractor trailers and roll off containers)	Current tipping fee per ton plus \$200/vehicle* plus \$400/vehicle* plus \$550/vehicle*
1		
*The Marquette County Landfill is a non-bazardo	31 to 40 cyd (large tractor trailers and roll off containers) *Loads in excess of 40 cyd will incur appropriate additional char us facility. Random sampling of loads is periodically conducted	plus \$700/vehicle* r <b>ges.</b>
Delivery of loads not designated as asbestos are sampling program are subject to additio In addition to tipping fees paid by the authorized cor

\* For hauler requested services such as dig outs, securing roll off boxes, vehicle recovery, and jump starts the MCSWMA and/or its employees will not be liable for hauler equipment damage.

\* All municipalities, inclusive of all haulers, will be charged \$68.00/ton (which includes a \$.07/ton HHW charge) for Type II, Type III, special waste, and contaminated soil, and \$565.07 per ton for medical waste.

\*\* Special waste charges have been computed to reflect the cost of disposal of material that requires special handling and cover. Proper notice by 3:00 pm on the day preceding delivery is required for asbestos, medical waste, and special material.

\*\*\*\* In general, waste that is not placed in the designated area will be charged a mixed load fee. Prohibited waste will be rejected.

# Refrigerant will be removed from appliances. Must be delivered separately and not mixed in loads. A mixed load charge will be assessed to loads with appliances containing refrigerant that are disposed in the landfill, along with the \$40 removal fee.

## ADDITIONAL CHARGES WILL BE ASSESSED TO LOADS CONTAINING PROHIBITED WASTES.

## The following are materials prohibited from disposal in a Michigan landfill:

Beverage containers – A beverage container containing one gallon or less of a soft drink, soda water, <u>carbonated</u> natural or mineral water, or other nonalcoholic <u>carbonated</u> drink, beer, ale, or other drink of whatever alcohol content. Loads containing more than 12 beverage containers will be charged a mixed load fee and the hauler will be required to retrieve the beverage containers.

Whole motor vehicle tires – Whole motor vehicle tires are accepted and charged the rates on the fee schedule, but are prohibited from disposal in the landfill. Prior to landfill disposal, the tires will be split or processed into pieces by landfill staff. Whole tires found mixed in loads that are disposed in the landfill will be assessed a mixed load fee.

Yard clippings - Yard clippings are defined as leaves, grass clippings, vegetable or other garden debris, shrubbery, or brush or tree trimmings.

Used oil – Used oil is defined as petroleum-based oil that through use, storage, or handling, has become unsuitable for its original purpose due to the presence of impurities or loss of original properties.

Lead acid batteries- these are defined as a storage battery in which the electrodes are grids of lead containing lead oxides that change in composition during charging and discharging, and the electrolyte is dilute sulfuric acid.

Low-level radioactive waste – Low-level radioactive waste (LLRW) includes items that have become contaminated with radioactive through exposure to neutron radiation.

Hazardous waste – Hazardous wastes are materials that are identified by specific processes or exhibit certain properties that require more stringent controls on disposal, as specified by Michigan law.

Mercury – Mercury-containing devices must not be disposed in landfill. Mercury will be taken free of charge if brought in separated from the loads. This includes thermostats, thermometers, furnace controls and switches.

Liquid waste - Liquid waste means any waste material that is determined to contain free liquids as defined by Method 9095, the paint filter liquids test.

Sewage – Sewage means untreated domestic wastewater. Sewage sludge is not prohibited.

PCBs - Means PCBs as defined in 40 CFR 761.3. This includes both PCB items and PCB-contaminated material.

Hot Ashes - Fire hazard

Nuclear Waste - Nuclear or by-product materials as defined by the Atomic Energy Act of 1954 as amended, 42 USC 2011 et seq.

Infectious Waste - as defined and regulated by the Michigan Dept. of Public Health

Refrigerant – Refrigerantors, freezers, air conditioners, dehumidifiers, water coolers and any other refrigerant-containing appliance. These are accepted but must come in separately and are charged \$40 per appliance for the refrigerant removal.

Condensed Gas Cylinders: Call 249-4125 for disposal information

## SPECIAL WASTES

Asbestos waste - All asbestos waste regulated by federal regulations is prohibited from disposal in a Michigan landfill unless the landfill complies with 40 CFR 61.154. All waste must be segregated and packaged per Authority and EGLE guidelines. Asbestos waste must not be mixed with other wastes. Medical waste – Under certain conditions medical waste can legally be disposed of in a Michigan landfill. All waste must be segregated and packaged per Authority and EGLE guidelines.
